How Do we Get Paid for The Services That We Provide To You?

As a business My Money is usually paid an upfront commission direct by the Provider and in some cases an additional trailing commission over the life of the loan. Commissions are typically calculated as a percentage of the loan value at a rate that can vary by Provider.

We are required to tell you the specific fees, commissions, extra payments, and other benefits that we have received or will, or may, receive in relation to the services that we provide to you. We must tell you these things before we give you advice or, if that is not practicable, as soon as practicable after we give you that advice.

The following table sets out the commissions we receive from various product suppliers.

Mortgages	
Initial	0.4 to 0.85 %
Ongoing	0.15 to 0.20%
Non-Bank	1.0 to 2.0 %

Conflicts of Interest and Commissions or other Incentives.

At the time of preparing this disclosure document we do not have any Conflicts of Interest that would influence the advice we provide. If any conflict occurs in the future, we will advise you and inform you how we would manage that conflict to not influence the advice we provide.

We receive commission when Mortgages and Loans are drawn down and may in some instances receive ongoing commissions. Commissions are usually a % of the mortgage

amount.

We may receive Commissions for Insurances and mortgages and investment enquiries referred to other advisers. They are based on a % of the annual premium you pay to the Insurance Provider. We do not receive all the commission. We can receive 30 to 50% of the adviser's commission.

We may also receive commission from other providers for referral introductions for currency exchange services, investment plan adviser introductions and Kiwisaver referrals.

Service Fee In certain situations, My Money may have to charge you a service fee for services rendered, including where:

- An upfront commission is not offered by the Provider your loan will be sourced through;
- The services we provide you are advisory in nature or involve a significant amount of work that will not result a commissionable transaction; or
- Your loan is expected to be repaid within a short timeframe and thus incur a full commission clawback;

Any proposed service fee will be discussed with you as soon as it becomes clear that it will be required and will only be charged following your formal acceptance of that fee.

Clawback Recovery Fee If a loan is fully or partly repaid within 48 months of settlement (the 'Clawback Period'), My Money may have some or all of the original upfront commission 'clawed back' by the Provider. To ensure that My Money is fairly compensated for the services originally provided to you, we may seek to recover some or all of this cost from you via a clawback recovery fee.

If you are charged a clawback recovery fee, it will be charged at time and cost for a maximum of 15 hours work at \$250 per hour or the amount of clawback imposed by the lender, whichever is the lessor".

Examples of when we may charge you a clawback recovery fee include: • The property is refinanced within the clawback period and My Money was not given the opportunity to arrange the refinance; • The property is sold and/or the loan repaid (partly or in full) within the clawback period. We will not charge you a clawback recovery fee if we charged you an upfront Service Fee for arranging the original loan.
